THE DEPARTMENT OF THE INTERIOR AND RELATED AGENCIES APPROPRIATIONS ACT, 1997

BAUCUS AMENDMENT NO. 5357

(Ordered to lie on the table.)

Mr. BAUCUS submitted an amendment intended to be proposed by him to the bill (H.R. 3662) making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 1997, and for other purposes; as follows:

At the appropriate place in title I, insert the following:

SEC. 1. KERR HYDROELECTRIC PROJECT.

For fiscal year 1997 and each fiscal year thereafter, the Secretary of the Interior shall not recommend that the Federal Energy Regulatory Commission impose, and the Commission shall not impose, as a condition to the modification of the Kerr Hydroelectric Project (FERC Project No. 5-021), a requirement to construct offshore revetment structures in Flathead Lake, Montana.

• Mr. BAUCUS. Mr. President; I submit an amendment to H.R. 3662, the fiscal year 1997 Interior appropriations bill.

From 1961 to his retirement from the Senate in 1977, Montana's Mike Mansfield served as Senate majority leader. It was the longest term as majority leader in American history.

During these years, the Senate passed the Voting Rights Act, created Medicare, passed the Clean Air and Clean Water Acts, debated the Cuban missile crisis and the war in Vietnam. On all these issues and more, Mike was a respected national leader.

Yet when Mike was asked to reflect back on his years in the Senate and identify his single proudest accomplishment, he responded, "saving Flathead Lake from the Army Corps of Engineers."

If you don't know Montana; and you don't know Flathead Lake; and you don't know Mike Mansfield, this answer may come as a surprise. But for those of us who know all three, this is perfectly easy to understand.

Located in western Montana, between Missoula and Kalispell, Flathead Lake is the largest fresh water lake in the United States, outside of the Great Lakes. Surrounded by the Mission Mountains and the Swan Range to the west, it is a place of spectacular beauty.

And it is also a place that is very much a part of so many Montanans—including this Senator. From boating, water skiing, fishing, or just sitting around a bonfire along the Lake's shore, Flathead Lake is a very special Montana place.

The corps had a plan to radically raise the level of this lake, transforming it forever and drowning many of the coves, shorelines, and fishing spots Montanans know so well. Montanans liked it just the way it was—and we still do today.

Yet some folks outside Montana just don't get it. They think they can im-

prove Flathead Lake. And that brings me to the amendment now before us.

The U.S. Fish and Wildlife Service has asked the Federal Energy Regulatory Commission for approval to construct an 8,700-foot-long retaining wall, at the cost of \$10 to \$14 million, near the north shore of the lake.

In theory, this great wall would prevent shore erosion and restore waterfowl habitat. These are commendable goals. But the cost of this proposal outweighs any possible benefits.

The view of the lake from the town of Bigfork, for example, would be ruined. Boaters would see a neo-industrial monstrosity instead of a peaceful shore. It is a bad idea, and my amendment would nip this weed in the bud by prohibiting construction of this wall.

Frankly, the Fish and Wildlife Service doesn't need to mandate lowering the level of Flathead Lake. And it doesn't need to mandate a big concrete slab in the lake to stem shoreline erosion. If erosion is proven to be an ongoing and significant problem, the Fish and Wildlife Service needs to find unobtrusive remedial measures that respect Flathead Lake and the people who enjoy it.

I believe this is just simple common sense. One Great Wall of China is plenty. None of us will ever improve on what the Good Lord did when he created Flathead Lake. Let us admit that right now and pass this amendment. •

THE FEDERAL AVIATION REAUTHORIZATION ACT OF 1996

HEFLIN AMENDMENT NO. 5358

(Ordered to lie on the table.)

Mr. HEFLIN submitted an amendment intended to be proposed by him to the bill (S. 1994) to amend title 49, United States Code, to reauthorize programs of the Federal Aviation Administration, and for other purposes; as follows:

At the appropriate place, insert the following:

SEC. 409. GADSDEN AIR DEPOT, ALABAMA.

(a) AUTHORITY TO GRANT WAIVERS.—Notwithstanding section 16 of the Federal Airport Act (as in effect on May 4, 1949), the Secretary is authorized, subject to the provisions of section 47153 of title 49, United States Code, and the provisions of subsection (b) of this section, to waive any of the terms contained in the deed of conveyances dated May 4, 1949, under which the United States conveyed certain property to the city of Gadsden, Alabama, for airport purposes.

(b) CONDITIONS.—Any waiver granted under subsection (a) shall be subject to the following conditions:

(1) The city of Gadsden, Alabama, shall agree that, in conveying any interest in the property which the United States conveyed to the city by a deed described in subsection (a), the city will receive an amount for such interest which is equal to the fair market value (as determined pursuant to regulations issued by the Secretary).

(2) Any such amount so received by the city shall be used by the city for the development, improvement, operation, or maintenance of (A) a public airport, or (B) lands (including any improvements thereto) which

produce revenues that are used for airport development purposes.

Conform the table of contents of the bill accordingly.

REID AMENDMENT NO. 5359

(Ordered to lie on the table.)

Mr. REID submitted an amendment intended to be proposed by him to the bill, S. 1994, *supra*; as follows:

At the appropriate place, insert the following new section:

SEC. . SENSE OF THE SENATE.

(a) FINDINGS.—The Senate finds that—

(1) there has been an intensification in the oppression and disregard for human life among nations that are willing to export terrorism;

(2) there has been an increase in attempts by criminal terrorists to murder airline passengers through the destruction of civilian airliners and the deliberate fear and death inflicted through bombings of buildings and the kidnapping of tourists and Americans residing abroad; and

(3) information widely available demonstrates that a significant portion of international terrorist activity is state-sponsored, -organized, -condoned, or -directed.

(b) SENSE OF THE SENATE.—It is the sense of the Senate that if evidence establishes beyond a clear and reasonable doubt that any act of hostility towards any United States citizen was an act of international terrorism sponsored, organized, condoned, or directed by any nation, a state of war should be considered to exist or to have existed between the United States of America and that nation, beginning as of the moment that the act of aggression occurs.

TITLE VI—AIR TRAFFIC MANAGEMENT SYSTEM PERFORMANCE IMPROVEMENT ACT

SEC. 601. SHORT TITLE.

This title may be cited as the “Air Traffic Management System Performance Improvement Act of 1996”.

SEC. 602. DEFINITIONS.

For the purposes of this title, the following definitions shall apply:

(1) ADMINISTRATION.—The term “Administration” means the Federal Aviation Administration.

(2) ADMINISTRATOR.—The term “Administrator” means the Administrator of the Federal Aviation Administration.

(3) SECRETARY.—The term “Secretary” means the Secretary of Transportation.

SEC. 603. EFFECTIVE DATE.

The provisions of this title and the amendments made by this title shall take effect on the date that is 30 days after the date of the enactment of this Act.

Subtitle A—General Provisions

SEC. 621. FINDINGS.

The Congress finds the following:

(1) In many respects the Administration is a unique agency, being one of the few non-defense government agencies that operates 24 hours a day, 365 days of the year, while continuing to rely on outdated technology to carry out its responsibilities for a state-of-the-art industry.

(2) Until January 1, 1996, users of the air transportation system paid 70 percent of the budget of the Administration, with the remaining 30 percent coming from the General Fund. The General Fund contribution of the years is one measure of the benefit received by the general public, military, and other users of Administration’s services.

(3) The Administration must become a more efficient, effective, and different organization to meet future challenges.

(4) The need to balance the Federal budget means that it may become more and more difficult to obtain sufficient General Fund contributions to meet the Administration’s future budget needs.

(5) Congress must keep its commitment to the users of the national air transportation system by seeking to spend all moneys collected from them each year and deposited into the Airport and Airway Trust Fund. Existing surpluses representing past receipts must also be spent for the purposes for which such funds were collected.

(6) The aviation community and the employees of the Administration must come together to improve the system. The Administration must continue to recognize who its customers are and what their needs are, and to design and redesign the system to make safety improvements and increase productivity.

(7) The Administration projects that commercial operations will increase by 18 percent and passenger traffic by 35 percent by the year 2002. Without effective airport expansion and system modernization, these needs cannot be met.

(8) Absent significant and meaningful reform, future challenges and needs cannot be met.

(9) The Administration must have a new way of doing business.

(10) There is widespread agreement within government and the aviation industry that reform of the Administration is essential to safely and efficiently accommodate the projected growth of aviation within the next decade.

(11) To the extent that the Congress determines that certain segments of the aviation community are not required to pay all of the costs of the government services which they require and benefits which they receive, the Congress should appropriate the difference between such costs and any receipts received from such segment.

(12) Prior to the imposition of any new charges or user fees on segments of the industry, an independent review must be performed to assess the funding needs and assumptions for operations, capital spending, and airport infrastructure.

(13) An independent, thorough, and complete study and assessment must be per-

formed of the costs to the Administration and the costs driven by each segment of the aviation system for safety and operational services, including the use of the air traffic control system and the Nation’s airports.

(14) Because the Administration is a unique Federal entity in that it is a participant in the daily operations of an industry, and because the national air transportation system faces significant problems without significant changes, the Administration has been authorized to change the Federal procurement and personnel systems to ensure that the Administration has the ability to keep pace with new technology and is able to match resources with the real personnel needs of the Administration.

(15) The existing budget system does not allow for long-term planning or timely acquisition of technology by the Administration.

(16) Without reforms in the areas of procurement, personnel, funding, and governance, the Administration will continue to experience delays and cost overruns in its major modernization programs and needed improvements in the performance of the air traffic management system will not occur.

(17) All reforms should be designed to help the Administration become more responsive to the needs of its customers and maintain the highest standards of safety.

SEC. 622. PURPOSES.

The purposes of this title are—

(1) to ensure that final action shall be taken on all notices of proposed rulemaking of the Administration within 18 months after the date of their publication;

(2) to permit the Administration, with Congressional review, to establish a program to improve air traffic management system performance and to establish appropriate levels of cost accountability for air traffic management services provided by the Administration;

(3) to establish a more autonomous and accountable Administration within the Department of Transportation; and

(4) to make the Administration a more efficient and effective organization, able to meet the needs of a dynamic, growing industry, and to ensure the safety of the traveling public.

SEC. 623. REGULATION OF CIVILIAN AIR TRANSPORTATION AND RELATED SERVICES BY THE FEDERAL AVIATION ADMINISTRATION AND DEPARTMENT OF TRANSPORTATION.

(a) IN GENERAL.—Section 106 is amended—

(1) by striking “The Administrator” in the fifth sentence of subsection (b) and inserting “Except as provided in subsection (f) of this section or in other provisions of law, the Administrator”; and

(2) by striking subsection (f) and inserting the following:

“(f) AUTHORITY OF THE SECRETARY AND THE ADMINISTRATOR.—

and qualifications of any officer or employee of the Administration to be appointed by the President or as a political appointee;

“(C) may delegate, and authorize successive redelegations of, to an officer or employee of the Administration any function, power, or duty conferred upon the Administrator, unless such delegation is prohibited by law; and

“(D) except as otherwise provided for in this title, and notwithstanding any other provision of law to the contrary, shall not be required to coordinate, submit for approval or concurrence, or seek the advice or views of the Secretary or any other officer or employee of the Department of Transportation on any matter with respect to which the Administrator is the final authority.

“(3) DEFINITION OF POLITICAL APPOINTEE.—For purposes of this subsection, the term ‘political appointee’ means any individual who—

“(A) is employed in a position on the Executive Schedule under sections 5312 through 5316 of title 5;

“(B) is a limited term appointee, limited emergency appointee, or noncareer appointee in the Senior Executive Service as defined under section 3132(a) (5), (6), and (7) of title 5, respectively; or

“(C) is employed in a position in the executive branch of the Government of a confidential or policy-determining character under Schedule C of subpart C of part 213 of title 5 of the Code of Federal Regulations.”.

(b) PRESERVATION OF EXISTING AUTHORITY.—Nothing in this title or the amendments made by this title limits any authority granted to the Administrator by statute or by delegation that was in effect on the day before the date of enactment of this Act.

The Administrator shall issue a final regulation, or take other final action, not later than 18 months after the date of publication in the Federal Register of a notice of proposed rulemaking or, in the case of an advanced notice of proposed rulemaking, if issued, not later than 24 months after that date.

“(B) APPROVAL OF SECRETARY OF TRANSPORTATION.—

“(i) The Administrator may not issue a proposed regulation or final regulation that is likely to result in the expenditure by State, local, and tribal governments in the aggregate, or by the private sector, of \$50,000,000 or more (adjusted annually for inflation beginning with the year following the date of enactment of the Air Traffic Management System Performance Improvement Act of 1996) in any 1 year, or any regulation which is significant, unless the Secretary of Transportation approves the issuance of the regulation in advance. For purposes of this paragraph, a regulation is significant if it is likely to—

“(I) have an annual effect on the economy of \$100,000,000 or more or adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities;

“(II) create a serious inconsistency or otherwise interfere with an action taken or planned by another agency;

“(III) materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligations of recipients thereof; or

“(iv) The Administrator shall submit a copy of any regulation requiring approval by the Secretary under clause (i) to the Secretary, who shall either approve it or return it to the Administrator with comments within 45 days after receiving it.

“(C) PERIODIC REVIEW.—(i) Beginning on the date which is 3 years after the date of enactment of the Air Traffic Management System Performance Improvement Act of 1996, the Administrator shall review any unusually burdensome regulation issued by the Administrator after the date of enactment of the Air Traffic Management System Performance Improvement Act of 1996 beginning not later than 3 years after the effective date of the regulation to determine if the cost assumptions were accurate, the benefit of the regulations, and the need to continue such regulations in force in their present form.

“(ii) The Administrator may identify for review under the criteria set forth in clause (i) unusually burdensome regulations that were issued before the date of enactment of the Air Traffic Management System Performance Improvement Act of 1996 and that have been in force for more than 3 years.

“(iii) For purposes of this subparagraph, the term ‘unusually burdensome regulation’ means any regulation that results in the annual expenditure by State, local, and tribal governments in the aggregate, or by the private sector, of \$25,000,000 or more (adjusted annually for inflation beginning with the year following the date of enactment of the Air Traffic Management System Performance Act of 1996) in any year.
